METHODIST MEN'S CLUB ORGANIZED AT BIG MEETING

R. C. Garrison Is Selected as President at Dinner Last Night.

ADDRESS IS GIVEN BY DR. McMASTER

Three Outstanding Events in Last 25 Years Are Basis of Talk.

Men of the Methodist church, organized recently into a mens club, held their first dinner and organization meeting Thursday night in the church basement.

It was a gathering of men and for men, and nearly 150 of them were present. As Dr. F. S. Collier, pastor of the church and sponsor of the new club, said, there wasn't a woman about the place. The men prepared and served the meal—one that tasted as good as the women serve—and did all the entertaining during and following the dinner.

J. E. Walton presided at the opening and until the men assembled had unanimously elected R. C. Garrison president of the club. Later in the evening the tellers announced results of other elections as follows: Vice president, J. L. Gray; secretary, Robert Rheuban; treasurer, Orlan Naragon; chairman, membership committee, George Dressell; chairman social committee, R. R. Miller; chairman entertainment committee, A. H. Stratton.

While he was presiding Chairman Walton introduced Levi Stamp, aged 91, who has been a Methodist for 70 years. Dr. Collier made a few remarks, the Methodist quartet sang, three Mt. Union students sang a college song, Dr. W. H. McMaster, president of Mt. Union college, led a few of the old grads in one of Mount's early college yells, and all the men joined in singing, Charles Cornwall being song leader.

President Garrison then introduced Dr. McMaster as the principal speaker and in his introduction Mount's prexy announced that while most of his time at present is taken up with work in connection with the campaign to raise an endowment and building fund of \$2,000,000 for Mt. Union, he had "played hooky" in order to join with the men of Salem in this big meeting.

3 Week's Old Baby Left in Man's Car

Cleveland, O., Jan. 8.—A three-week-old blue-eyed baby was recovered from cold and exposure in a man's hospital today. Miss Kennedy found a basket covered with brown paper in his automobile. He thought someone at his house was playing a joke on him so he took the basket inside. The basket, after a time, became noisy. Police have no clues as to the baby's identification as there were no marks on the child's clothing. He was "wrapped" in an old bathrobe.

President's Uncle, Eighty, Gets First Glimpse of Big City

Boston, Jan. 8.—John J. Wilder, the president's uncle, today looked over a city for the first time in his 80 years of life.

"Uncle John" came down from his Plymouth, Vermont, farm with his son-in-law, Carl E. Herick, postmaster at Brownville, Vermont, to fill an engagement to play his fiddle at a local theatre. Astonishment was written on the face of "Uncle John" as he saw at first hand the things he had often read about.

A rehearsal, a visit to the governor and a visit to the mayor were in Uncle John's schedule for the day.

The president's uncle, who had his 100-year-old fiddle with him, said he wanted to meet "Mellie" Dunham, champion fiddler of Maine. Like Dunham, Wilder has been invited to play for Henry Ford, but he thinks Detroit is too far off.

MYSTERY ELEMENT DEEPENS IN PROBE OF INDIAN MURDER

Government Trying to Get Line to Other Osage Indian Murders.

Guthrie, Okla., Jan. 8.—New elements added today to the federal grand jury investigation of the alleged "murders for millions" in which the government charges that some of the richest Indians in the world have been slain for their "head rights," amounting in the one case under inquiry to \$3,000,000. Twenty-five of the witnesses called by the government were discharged late yesterday and as the hearing, resumed this morning it was rumored that they had been summoned not to give testimony in the Mollie Burkhardt case now under investigation but for the government to get a line on other possible Osage Indian murders.

The alleged conspiracy to kill the Indians to obtain their rights in some of the most valuable oil and grazing lands in America has, in the three years quiet state and federal probe, been said to have been much wider spread than the single case of Mollie Burkhardt, maternal ancestress of Mollie Que Burkhardt whose husband is one of the alleged conspirators under arrest. But witnesses in the last few years have been intimidated, government and state agents have been driven out of the Osage hills by threats and Indians who might have known of other mysterious murders have often been found in the lonely foothills with bullet wounds in their bodies or a knife stab in their heart.

Follies Beauty On Fourth Honeymoon With Former Hubby

Chattanooga, Tenn., Jan. 8.—Mrs. Evelyn Farris Bennett, former Follies beauty, was today enjoying her fourth honeymoon—the second with Raymond O. Bennett, Jr., son of a wealthy Chattanooga packer, from whom she was older divorced in 1914.

The Bennetts were re-married here last night. "I have never loved any one but Raymond, and reports that I was going to marry some one else were without foundation," said Mrs. Bennett today. Mrs. Bennett has stood by Bennett during a number of misfortunes, including a trial in which he was acquitted of killing another man in Florida, and more recently, a white slave charge in Florida. He was exonerated by a federal grand jury in the latter case, also.

SECLUSION BORES RUMANIAN PRINCE

Prince Carol Has no Plans Since Renouncing His Right to Throne.

Milan, Jan. 8.—Prince Carol, who has renounced his rights to the throne of Rumania, is today thoroughly tired of the seclusion which public curiosity has forced upon him. "It's hell staying indoors like this," said Prince Carol as he started upon his tenth day of seclusion in the apartments which he has taken in the Hotel De La ville. "But I don't know how otherwise to escape the public curiosity which is making my life unbearable."

Prince Carol registered a wholesale denial of newspaper stories which have been published regarding his future, and also denied interviews attributed to him.

"Much has been printed about what I intend to do, but it is all nonsense because I have kept silent," said the prince. "All sorts of impossible stories have been printed about Madame Lupescu and myself. I have not any thought of entering industry or going to America. I don't know what I am going to do. I shall remain in Italy for a time, however, probably in Milan."

FIRE DRIVES 400 FROM TENEMENT

Dwellers Are Routed When Fire Sweeps Through Furniture Plant.

New York, Jan. 8.—Four hundred tenement dwellers were driven to the streets in scanty attire early today when a \$200,000 fire swept through a five-story Brooklyn furniture factory and menaced the block of tenement houses for more than two hours.

One hundred and fifty firemen, battling the flames for two hours although they were encased in armors of ice. Twenty-five of them suffered minor injuries from falls on the ice-covered streets and from exhaustion superinduced by the cold and smoke.

Police reserves were summoned to control the crowd of excited tenement dwellers. In many instances the residents refused to leave the threatened buildings and had to be forced to the street.

Suffering from the cold and the bitter wind that whipped the flames, the refugees were huddled in a school building and nearby stores.

A three-story storehouse and a two-story structure occupied by a grocer, which adjoined the factory, also were damaged badly by the fire.

O. S. U. PROFESSOR IS GENIUS BEHIND SECRET INVENTION

Simple Radio Attachment Intercepts All Forms of Interference.

CAN BE INSTALLED ON ANY RADIO SET

Mechanism Is Small and of Simple Construction; Cost Low, Too.

Columbus, Jan. 8.—An elude elimination of static was promised the radio world today by Prof. Dana Demorest, head of the Department of Metallurgy, Ohio State university, who admitted to International News Service his identity as the creative genius behind a secret invention for which patent is pending.

Further than the bare statement that he had produced a simple radio attachment and had proven conclusively that it will intercept all forms of interference, Prof. Demorest, acting on advice of his attorney declined to give further information.

The discovery that Prof. Demorest had produced the device which is registered in the U. S. patent office, under the name of C. W. Woodruff, a Columbus attorney added tremendously to its importance in scientific circles.

The professor is a member of a family of scientists and students. He was identified a short time ago as a crank and a scoundrel of clay to which he had given by his own formula that rare old coloring believed to have been lost in the mystery of the pyramids brought him world wide attention.

While he refused to discuss the construction or application of his invention until his rights had been fully protected by the government the professor revealed in an exclusive interview that many demonstrations had been made in the presence of prominent radio manufacturers or their representatives who declared the instrument a sesame to a revolutionized industry.

They offered him various sums ranging from \$1,000,000 to \$2,000,000 for sole control of the invention, he said, and since he does not care to (Continued on third page.)

Let Berlin and His Bride Alone, Advice Henry Ford Offers

Sudbury, Mass., Jan. 8.—The world's richest man, Henry Ford, thinks the marriage of Irving Berlin, jazz king, and Ellen Mackay, society debutante, is all right.

Ford, who was at his historic Wayside Inn, today said: "What has race and religion got to do with the marriage of this talented couple. I can't see any harm in such a marriage when the contracting parties love each other. Let society criticize the marriage. In the end what does it amount to? I say let Mr. and Mrs. Berlin alone."

Construction of a colonial village near the inn, where a group of New England families would live the lives of Puritan forefathers, will be underway next spring, it was announced.

Ford, who has enjoyed skating on the ice here, declared he has not heard of price cutting of automobiles. There will be no cutting in the price of his cars, he said.

COUNTERFEIT PLOT INVOLVES FORMER KAISER, IS REPORT

Crown Princes in Plot to Divide Austria Between Bavaria, Germany.

Paris, Jan. 8.—The Hungarian counterfeiting scandal, which threatens to besmirch the names of the highest government officials and members of the nobility, was part of a gigantic plot hatched in Bavaria with the approval of the former kaiser, LeMatin said today.

The scandal arose over the discovery of a plot by police of the various European capitals to flood the continent with counterfeit banknotes. These notes, extraordinary ingenious quality, were manufactured, it is understood, in the cellar of the official cartographical institute at Budapest.

The Hungarian Archduke Albert, president of the Tesz, was alleged by Le Matin to have been an active participant in the plot, he having signed, it was charged, an informal contract with Crown Prince Wilhelm of Germany and Crown Prince Ruprecht of Bavaria providing that if the plot succeeded Austria would be divided between Bavaria and Germany.

Le Matin charged that Albert recently went to Rome to get the support of Premier Mussolini. He is also alleged to have plotted with Rumanian nationalists, believing that France was on the verge of revolution and thus powerless to intervene. The plotters, it is claimed, counted on England maintaining a policy of disinterestedness.

It was reported, Le Matin said, that the Hungarian regent, Admiral Horthy, was implicated as well, even to the point of proposing that he cede his place as regent to the archduke in order to facilitate the latter's succession to the throne.

THE AMERICAN

Theodore Roosevelt died seven years ago Wednesday morning. That is a long time in the life of the modern world, speeding from invention to invention, from sensation to sensation. It seems as if one measures by the crowded years, as if a full generation had passed since that sudden end of a strenuous being.

Much in that career that seemed important when it happened has already been forgotten. More will doubtless pass. Revolutions of great men are always in order. No chapter in history is ever completely closed. No man today or a generation hence can utter a final judgment upon Theodore Roosevelt and his place in the annals of his country.

Yet for all this shedding of ephemeral incident—perhaps, indeed, because of it—the figure of the Colonel stands out against the sky, taller and sharper than ever. He has no single great achievement as his monument. His critics have said, and therefore they doubt the enduring quality of his fame. The Panama Canal might be offered as a considerable labor for most men. Yet it seems beside the point. Roosevelt bestrode two continents and turning the waters of one ocean into the other may suggest a herculean figure for the sculptor. Here is too stilted and unhuman a creation to represent that hard hitting friend and enemy who knew no such word as neutrality and whom all men loved or hated.

There, we suggest, is the enduring quality of the Colonel. Other men labored in the fight for political progress. Another man might have severed the isthmus of Panama. Another leader might have arisen to unite the sections of the country in a new spirit of friendliness. What was unique was the sum of his personality, his rich mind and fiery heart, his undaunted courage, and that pioneer readiness, run at hip, to meet whatever fate the gods had in store for him and die happy, fighting for what he believed. In life, as in character, he was the typical American of his age. No other public man so completely united the qualities east and south, north and west. He was the commanding figure of that half century which followed reconstruction and ended in the World War. It was this common man of heroic stature that he lives today as an American among Americans.

CAREERS AND CHILDREN

Miss Storm Jameson has come from England with a warning that in the near future women will be compelled to choose between careers and children. The wife of an English publisher, Mrs. Jameson, who is a novelist, thinks that the problem is more difficult in her country than here, because English husbands expect more from their wives than do American husbands. Miss Jameson commands our attention because she has a ten-year-old boy and has distinguished herself in the literary field.

Lady Astor might make some interesting observations. She was the first woman to take a seat in the House of Commons. Her family includes a goodly number of boys and girls. Mme. Homers operative career has been no less brilliant because she devoted a great deal of attention to her growing family. Mme. Curie achieved fame as a scientist despite the handicap of a daughter. Among theatrical people the name of Sybil Thorndike, who has two sons and two daughters, occurs at once. In the literary world a score of mothers who have won distinction might be mentioned.

These random instances would tend to prove that women are not limited so narrowly as Miss Jameson asserts. With the statement that "the instinct of motherhood remains the dominant force there will be general agreement. Yet each day the opportunity for women in professional life widens. Few will argue that the pride and love of motherhood are overshadowed or even weakened by success in professional life. The woman who works, whether as an

editor or as theatrical producer, may have the same interest and affection for her offspring as does the housewife who finds her sole mission in life in her home.

A. Fossil remains of the American type of elephant or mastodon have been found in various parts of North America. The actual association of man and mammoth in America has not been proved, however. In Africa, Oklahoma, there is a subterranean spring from which have been brought to light remains of the mammoth and mastodon. In this spring were also found numerous implements of flint, principally arrowheads. Prof. J. M. Clarke of Altica, N. Y. found bones of a mastodon four feet below the surface of the ground. Similar remains have also been found at Bone Lick in Kentucky.

GRANGE'S FRIEND SUES FOR \$50,000 FOR STAGE PLANS

Chicago, Jan. 5.—A. H. Schatz, known friend of Harold "Red" Grange, at Wheaton, Ill., and known in the theatrical world as Johnny Small, has sued Grange in superior court here for \$50,000.

Schatz claimed that he conceived the idea of capitalizing Grange's athletic prowess and that they signed a contract by which he became Grange's manager. Then Grange changed his mind, after Schatz had given him wide publicity as the champion athlete, signed up with C. C. DeLoach and became a professional football player, the petition alleges. Damages are asked because Schatz charged Grange failed to fill a 32-week vaudeville engagement arranged for him by Schatz.

METHODIST MEN

Continued from first page

Under the three outstanding accomplishments of the first quarter of the present century the first of these, he said, was the application of the inventions of science to the needs of man. He dwelt at length on the mar-

vels of these inventions of science, such as flying machines by which men have been enabled to fly around the world, the radio, etc., which are more marvelous and magic, he said, than Aladdin's dreams or Aesop's fables.

The second great accomplishment in the first 25 years of the Twentieth century, Dr. McMaster continued, was the World war, fought as it was to bring an end to all wars, and the steps that have been taken since that war to bring about world peace. He praised the Locarno security pact as one of these great steps, and also the league of nations, which has been functioning in the prevention of wars even though the United States has not joined. The league set up the machinery for the election of judges of the world court of international justice, which he mentioned as one of the great undertakings for the perpetuation of peace.

Dr. McMaster took the greatest newspaper story of the past year—the Scopes evolution trial—as the basis of the third great accomplishment of the quarter century. But he pointed to the debate in which Clarence Darrow engaged in Chicago following the Tennessee trial as the culmination of the great victory for Christian principles, for in that debate Darrow, the agnostic, was defeated in his arguments that man is but a machine without a soul. The bishop who opposed him admitted that man is a machine, he said, but proved that he also has a soul which, under God's guidance, reaches out into fields where science has been unable to penetrate.

TRIED TO REMOVE TAX WAIVER FROM FILES, IS CHARGE

Washington, Jan. 5.—Charged with conspiracy to remove government documents from files of the bureau of internal revenue, John P. Daly, auditor in the income tax unit, is held today in \$2,000 for hearing in the federal court on Jan. 19.

The government alleges Daly conspired with Robert M. Foster, of West Palm Beach, Fla., to remove a tax waiver filed by Yielding Brothers company, and that Daly was to receive \$4,000.

Previous testimony before United States Commissioner Needham C. Turnage alleged that Daly approached Oscar B. Buckner, another auditor in the income tax unit, and offered to divide \$3,000 with him if Buckner would remove the file from the special assessment section of the bureau.

GIRL KIDNAPED TWO YEARS AGO, ACCUSES UNCLE

Chicago, Jan. 5.—Clutching a five-months old baby to her breast, Elsie Dunlevy, 17, poured into the ears of police today a semi-hysterical story of being kidnaped two years ago from her home in Manchester, Ia., when she was 15, of being taken from place to place, always on the move for fear of being caught, beaten when she did not obey her captor's will and threatened with death if she revealed her plight.

The man she accuses is her uncle, John Dunlevy, 37-year-old mechanic, who has a wife and five children in Rochester, N. Y. He is held pending arrival of the girl's relatives from Manchester who are expected to take action against him.

Cox Calls For Men "Unafraid" to Lead

Sidney, O., Jan. 5.—A demand for leadership by "men unafraid," and condemnation of "timid souls who would put expediency before principle," because "disheartened by recent Democratic losses," was made by former Gov. James W. Cox, Democratic presidential candidate in 1920, in a letter read to the Jackson day banquet here.

Calling again for the kind of leadership exhibited by Jefferson, Jackson and Wilson, Gov. Cox predicted that "the executive emancipation of the federal trade commission, and the tariff commission, together with the fiscal policy conceived only for the interests of the manufacturers will bring about a revolution in public opinion."

PROF. DEMOREST

Continued from first page

become a producer he will market it as soon as patent is granted.

Although his device is based on a scientific truth, Prof. Demorest said, it is not a scientific discovery.

"There are a number of facts that enter into the operation of the contrivance," he confided, but as a whole the mechanism is small and of simple construction. It can be manufactured at a remarkable low cost and installed on any radio set or built into sets when they are manufactured.

"Static is not grounded by this equipment, as may be the popular belief. It merely is intercepted and carried into discard before the interference can reach the head phones or loud speaker."

It Works, He Says

Prof. Demorest said he had been experimenting with static elimination ever since radio was introduced and that while he entertained a more or less latent belief that either himself, or someone else, eventually would fetter the ether tyrant, he was startled one night to find that a finisher's touch to the invention suddenly brought in a human voice and the resonant notes of a musical instrument with an undreamed of clearness and volume.

"There is no longer a question of our ability to get away from static," the professor declared.

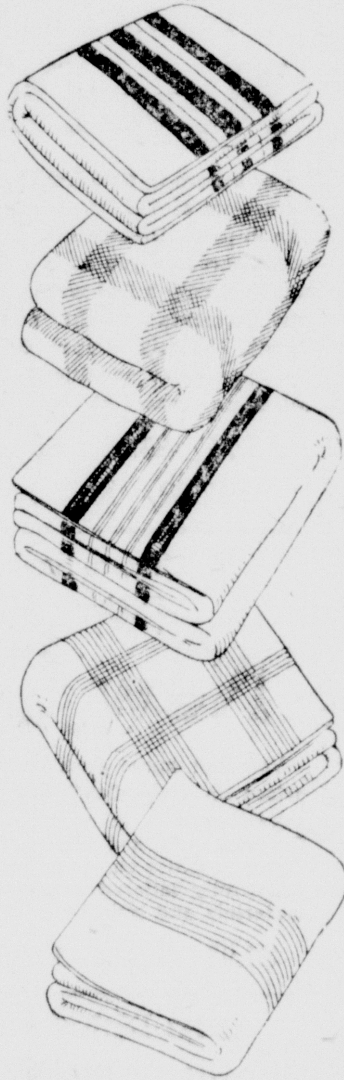

"I have made a radio attachment to control interference in reception—and it works. It soon will be manufactured as a vital part of every radio. The principle is the same as that of a farmer's threshing machine, which separates the chaff from the grain. In radio clear reception is the golden grain and my invention the machine that bears off the chaff."

Thaw, informed that her husband of years ago, Harry K. Thaw, was believed to be on his way from Pittsburgh to her bedside in the West Side hospital here, said that she did not know whether she would see him or not.

She said she had had no word from Thaw or any of his representatives here.

Three-Story House Is Wrecked by Bomb

Pittsburgh, Jan. 5.—Police today

wrought damage estimated at \$20,000 was the work of the Black Hand or someone who held a grudge against the grocer.

Windows for blocks around were shattered.

SECOND SERIAL CHAPTER UNFOLDS NEW ROMANCE

"On the Show," the second chapter of the new Patheserial, "Wild West," featuring Jack Mulhall and Helen Ferguson, is to be shown Friday and Saturday at the Royal Theatre. It contains some fascinating scenes back stage in the circus of which Polly Breen, played by Miss Ferguson, is the star, who is this week heroically rescued from under the hoofs of the huge elephant by Cowboy Jimmy Whitehawk, played by Jack Mulhall.

In the second chapter the plot, as it unfolds, discloses the identity of Polly, and the information becomes known secretly to Bob, who discloses himself as willing to fall whichever way the wind blows. Bob's attention to Polly excited the jealousy of Elsie Withers, whose temper at last is none too sweet.

While the circus is moving on, further away from the Osborne ranch where Jimmy, who has made deep impression on Polly is foreman, cattle rustlers are carrying the daylight out of the Osborne cowboys, and the final thrill of the chapter finds the life of Jimmy endangered while he daringly rides into the rustlers' lair.

ALUMINUM CASE IS GIVEN PUBLIC HEARING TODAY

Washington, Jan. 8.—The senatorial investigation into alleged delay on the part of the Department of Justice in prosecuting an anti-trust complaint against the Mellon-owned Aluminum company of America was to get under way this afternoon with public hearings before the senate judiciary committee.

The first witnesses summoned included Atty. Gen. John G. Sarant, Assistant Atty. Gen. William J. Donovan, Chairman Vernon W. Van Fleet and other officials of the federal trade commission. The investigation was authorized by the senate to determine whether the attorney general was showing "undue delay" in bringing a prosecution against the Aluminum company on a contempt charge for alleged "unfair practices."

MINERS' STRIKE PARLEY REACHES TRADING PHASE

New York, Jan. 8.—The business of settling the strike of 158,000 anthracite coal miners was proceeding today with every indication of success. For the first time since the operators and miners broke up their negotiations in Atlantic City last August, which was followed by the strike on September 1, both sides are right down to a business basis and sawing wood.

Deliberations have passed into the "trading" phase, which invariably presages a settlement.

Two important matters, both being traded upon, are temporarily holding off a settlement, namely: 1.—How much of a wage increase, if any, shall the miners get under a new contract? 2.—What shall be the duration of a new contract?

Klan Only Issue in Municipal Elections

Charleston, W. Va., Jan. 8.—National party lines were discarded and the Ku Klux Klan issue held the limelight in a majority of the municipal elections in West Virginia yesterday, returns today indicated.

At Gassaway a heated and open fight against the klan endorsement candidates was successful, while at Cedar Grove and Montgomery the klan triumphed at the polls.

Dr. G. L. Wyatt was elected mayor of White Sulphur Springs, noted resort.

Plans Blimp Larger Than the Shenandoah

New York, Jan. 8.—Plans to build an all-metal dirigible type airship two and one-half times the size of the Shenandoah were announced by Carl P. Fritzsche, general manager of the Aircraft Development Corporation of Detroit. The ship will contain 5,000,000 cubic feet of gas.

PLEA FOR COUNTY RELIEF IS HEARD

Ohio Taxation Committees Urged to Support Baxter Relief Bill.

Columbus, Jan. 8.—Strong support of the Baxter bill, proposing emergency relief for financially distressed Ohio taxing units, was expressed at a joint public hearing of both senate and house taxation committees meeting here today to draft plans for the special one day session of the state legislature which is to be held on Jan. 15.

Senator C. C. Bolton of Cleveland, presiding at the meeting, declared that practically half of Ohio's 88 counties apparently were in need of legislative relief because of a deficiency in funds needed to defray operating expenses.

E. O. Akerman, former Allen county auditor, outlined the financial difficulties of his county and was followed by H. E. Simonson, chairman of the executive committee of the Lima board of commerce, who seconded Akerman's position in favor of the Baxter bill.

L. C. Finley, Belmont county auditor, detailed the distress of his county and asked that the Baxter bill be passed at the special session of the general assembly.

FLOODS ENDANGER CITY WINE SUPPLY

Paris Takes Vital Interest in Situation; Thames Valley Afloat.

Paris, Jan. 8.—The rise of the Seine is slower today, nevertheless there is grave danger that by Sunday the suburbs of Courbevoie, Asnières, Neuilly and St. Denis will be inundated. Predictions that clearer weather is in prospect give hopes that a serious flood menace may be avoided.

Paris took a vital interest in the flood situation today when the wine docks were flooded, endangering the city's supply of wine.

London, Jan. 8.—The Thames valley is afloat today. Heavy rains have swollen the Thames until its flood area has spread throughout even the highest ground in the Thames valley.

There has been no loss of life, but there has been heavy property damage and a considerable amount of poultry and some cattle has been lost.

Boy Bandit Slaver Pays Death Penalty

Little Rock, Ark., Jan. 8.—Tye Clark, youthful alleged bandit slayer, went to his death in the electric chair here today, protesting his innocence of the murder of L. M. Stout, banker of Sulphur Springs, Ark. A last minute plea to Gov. Terrell for clemency for Clark, made by his brother, Ray Clark, a coal miner of Dugger, Ind., was fruitless.

Reynolds May Enter Race for Ohio Post

Columbus, Jan. 8.—That he is "seriously considering" announcing his candidacy for the Democratic nomination for lieutenant governor is the declaration made here by former state senator, James A. Reynolds, Cleveland.

Reynolds served two terms as senator and five terms as a state representative. He was the only Democratic member of the Ohio senate two years ago.

Bolen Dance Studio

Miss Verna Bolen will open her second term here, at the Elks Building, third floor, Monday, Jan. 11, 1926. Miss Bolen is a student of Mr. and Mrs. Raymond Bott, Youngstown, O. Everything in ballroom technique from the waltz down to the Charleston, is taught. The round and square dances which are coming back into vogue will also be taught.

Private lessons will be given by special appointment. Private lessons on the Charleston alone will also be given by appointment.

All types of ballet technique will be taught. Miss Bolen is offering an opportunity for business girls and women. A class of ten or more girls and women can be organized to take a ballet course. Tuesday night has been set aside for their class. There are many business girls and women who want to take this course, but have not had an opportunity and here it is. It is a good way to either reduce or gain. This exercise is the best way to build up a strong physique. You can't grow old as long as you take the right kind of exercise.

Let us see, if we cannot organize this class. You will enjoy the hour of study and will not be sorry for having enrolled.

Variety of News in Brief Form
New York, Jan. 8.—Pledges of \$500,000 for a Brooklyn university have been received according to an announcement at a dinner of the Brooklyn Chamber of Commerce.

Port Jervis, Jan. 8.—Capture of a large pilot snake in a large spring near here was interpreted as a sure sign of warm weather by Joseph W. Smith, 90-year-old naturalist.

New York, Jan. 8.—The most representative American boy, Joseph Nevins, 13, of Washington visiting New York for the first time, said of all things he liked the movies here because they were "somewhat different." Young Nevins received his title in a contest held by the Boys club of Washington.

Camden, N. J., Jan. 8.—The New Jersey branch of the Women's Christian Temperance Union ousted from membership Mrs. Bertha Shippen Irving of Haddonfield, N. J., because she declared recently that "prohibition was ineffective and must be made less drastic."

Mrs. Irving is a member of the state board of education and the Democratic state committee.

Wilmore, Ky., Jan. 8.—Teaching evolution as a fact will be combatted in Kentucky by the "Fundamentalists' association," just organized here. Rev. Andrew Jackson, its spokesman announced. Branches will be organized in all 119 counties in the state, he said.

Chicago, Jan. 8.—At 93, Julius Klose of Whiting, Ind., is the oldest litigant ever to appear in local courts. He's suing Mrs. Charlotte Haag for \$1,000 which he says she borrowed. She says he got it back in the shape of board and lodging because when she raised the price he didn't pay the raise.

Decision In Senator Nye Case Due Today

Washington, Jan. 8.—With the world court and other problems temporarily laid aside, the senate today neared a decision on the question of seating Senator Desha. The appointment of Nye, challenged as illegal by a majority of the senate elections committee, directly involved the question as to whether a United States senator is a state officer or a federal officer. Upon this issue, the senate was sharply divided but an unofficial poll indicated Nye would be denied his seat.

MACKAY MILLIONS DON'T WORRY HER

Ellin Cut Off From Dad's
Fortune, Gets Million
of Berlin Funds.

New York, Jan. 5.—Irving Berlin, popular composer, settled class to a million-dollar estate when his bride, the actress, Ellin Mackay, society debutante, was a wedding gift, according to estimates of the couple's fortune.

The couple were known shortly after the wedding as reports that the bride's father, Charles H. Mackay, head of the Mackay Telegraph company, had the bride's fortune, cutting his daughter's share to a million dollars, according to estimates of the couple's fortune.

It was further reported that Mackay had ordered his daughter's effects removed from the family mansion at 20 West 46th st.

Berlin, the latest report had it, gave her his personal fortune of nearly \$1,000,000 to his young wife when he learned of the disinheritance.

With an additional \$2,000,000 which Mrs. Berlin is to receive from her grandfather's estate, when she becomes 25, she will be well off in her own rights. She is now 22.

COLUMBIANA

The Columbian Central Markets, independent basketball team, has won two games on successive evenings. Tuesday night they journeyed to Hardard and took over the Steward Hardware team by the score of 20-20, while on Wednesday evening at the local high school gym they defeated the Hillcrest A. O. of Youngstown 25-21 in an exciting and closely contested game.

The Central Markets have added Perry Kyser and Fred Miller to their roster and at Hubbard, Kyser played a fine game in the absence of Burke.

The Wednesday evening games secured a good attendance, both the preliminary and big game attracting many out of town fans. The Hillcrest A. O. showed a well balanced team but were off in their shooting, probably from lack of practice. Both teams were very erratic in foul shooting, only one foul each being made by each team. Burke, as usual, led in the scoring, making seven baskets.

In an interesting preliminary game the Franklin Furniture Co.

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your doctor that you want a small bottle of Elys Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head, soothe and heal the swollen, inflamed mucous membrane and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed up and miserable. Adv.

At the Columbian Christian church, Dr. W. S. Martin of Atlanta, Ga., is causing great interest and comment with his series of special meetings. His hearers each evening are of the opinion that no pulpit man of his ability has ever occupied a pulpit in Columbiana. Dr. Martin is also a well known hymn writer and composer. His best known hymn is "God Will Take Care of You."

On next Sunday evening by request, he will deliver his address on "The Music of Life." This address Dr. Martin formerly gave on the lecture platform. He now gives this in the form of a sermon, the base of which is founded on seven musical expressions. Music lovers will especially enjoy this sermon, which will be the last one of the nightly series.

Mr. and Mrs. John Leaf recently entertained the following guests in honor of Mrs. Leaf's birthday: Mr. and Mrs. H. P. Walper and son and Mr. and Mrs. H. R. Money, Youngstown; Mr. and Mrs. Harry Darratt, Cleveland; and Mr. and Mrs. Carl Ferguson and family and Mr. John Burlew of Hubbard.

The Union Week of Prayer services have been continued at the Grace Reformed church on Tuesday and Wednesday evening, with Rev. Wiest and

Rev. Strubel as the speakers. The balance of the week, the Methodist church will be occupied, the meetings closing Sunday night. All sermons are on the subject of prayer.

YEAR'S CUSTOMS RECEIPTS SHOW BUSINESS BOOM

Washington, Jan. 5.—America's business expansion of the last six months of 1925 was reflected today in announcement at the treasury that

customs receipts for that period were \$292,000,000, exceeding by \$43,000,000 the high record established from June to December, 1923.

Officials predicted that for the year ending next June customs receipts will exceed \$605,000,000, the largest in history.

This form of governmental receipt is held to be an unfailing barometer of business conditions.

In connection with the vast increase of customs business plans were started by the treasury for a general reorganization of the service.

The treasury is expected to sponsor legislation to create a bureau of customs headed by a commissioner, placing the service on the same plane as the bureau of internal revenue. Not only has the normal work of

the service outstripped the facilities, but under General L. C. Andrews' administration of prohibition, an important percentage of responsibility for dry enforcement has been added on the customs service.

prosperous, but we must still expect secret intrigue among the nation's financiers. We will not recover our loans to European governments.

Continuance of Crime
As the sign of Leo is opposed, we may expect a continuance of crime, temporal authority will be everywhere met by revolt. Science, art, and even religion will be in direct revolt against present domination.

A new religious cult will come to Boston, and will gain many members. It will be based on the principles of Christianity, but will not conform to the old traditions.

Saturn and Mars, two very evil planets, still cast their shadows over us. Storms and earthquakes will cause intense suffering. At the end of the year we shall emerge from this influence. The loss of the Shenandoah shows the opposition of these planets to the coming 'Age of Air.'

Washington will be the scene of an event which will excite great pub-

lic indignation. A very prominent man will be involved. President and Mrs. Coolidge will have an eventful year in store, with perhaps a severe illness in the president.

For persons born in the first three weeks of February, June or October of any year, 1926, will be prosperous. Those born in April of any year may look for unexpected good fortune.

RUBBER, COFFEE PRICE PROBE AT HOME DEFEATED

Washington, Jan. 8.—An effort to broaden the congressional investigation of the foreign rubber and coffee monopolies into the domestic field and have an investigation conducted also into the prices and control of these products as sold in the United States was defeated today.

Sponsored by Rep. Parks (D) of Arkansas, the broadening resolution would investigate the prices and practices of auto tire manufacturers. The Republican majority on the house interstate and foreign commerce committee voted it down.

Today's effort to broaden the scope of the inquiry followed Democratic criticisms that the administration was crying against foreign monopolies, while remaining "blind" to domestic monopolies.

Andrews' Kin Jailed For Carrying Booze

Jacksonville, Fla., Jan. 8.—Benjamin Meyers of Washington, D. C., claiming to be a second cousin of Gen. Lincoln C. Andrews, chief prohibition administrator of the United States, is held here on a charge of violating the prohibition law.

A pint of whiskey landed Myers in jail. Agents allege they found it on his person when they raided a "pressing club" and seized 40 quarts of whiskey.

Myers claims he has driven for three presidents of the United States. He said he was chauffeur for President McKinley just before that executive was slain and that he had also driven Presidents Roosevelt and Harding.

The Alliance concern was the only company bidding for the order which could handle the entire contract within its own shops. The order will afford employment for approximately 1,000 men for a period of eight months. This order, together with the other run of smaller orders now on the books, presages the greatest year in production at Morgan's since the post-war boom of 1920, company executives declared today.

GIBSON AT GRAND
It is contended for "Let 'Er Buck," Universal-Gibson special coming to the Grand tonight with Hoot Gibson as star, that never before has a picture been made in such an atmosphere.

And all this because "Let 'Er Buck" was made in Pendleton, Oregon, while that city's famous annual round-up was in progress. In consequence there was available for atmospheric purposes a collection of the most skilled cowboys, the danger-wisest steers and a host of other elements all of championship standing when it comes to sports of the cattle range.

Hoot Gibson is a favorite among the riders who assembled at Pendleton, for in 1912 he won the all-around championship there. Further, several of the Universal ranch riders in the company are old time participants in the round-up sports and they were entered in a number of events on the program.

The supporting cast of "Let 'Er Buck" includes Marian Nixon, Josie Sedgwick, G. Raymond Nye, Charles K. French, Fred Humes and William Steele. Edward Sedgwick directed the picture and collaborated with Raymond L. Schrock in writing it.

THE GUMPS—OUT OF THE PAST

"CHICKIE"
Dorothy Mackall declared by Earl Hudson, First National's eastern production supervisor, to be one of the real screen stars of the future, will be seen at the State tonight in the title role of "Chickie," a film version of the newspaper serial story.

Chickie, in brief, is the story of Chickie Bryce, a poor typist, who wants a millionaire husband, not with a thought of love, but with the sole idea that he can give her things she has wanted so long. She meets her millionaire but discovers, like so many Chickies, a dissolute type of man from whom she is formed to flee. At the same party she meets a poor but ambitious law clerk and romance creeps in.

Jake Munson, the millionaire, finds Chickie is different and offers to marry her, but Chickie and Barry Dunne, the young lawyer, have loved secretly, and Chickie disappoints Munson.

John Bowers plays opposite Miss Mackall. Others are Hobart Bosworth, Gladys Brockwell, Paul Nicholson, Myrtle Stedman, Olive Tell and Lora Sonderson.

Young People Fair Bunch, Considering Parents, His View

Bethany, W. Va., Jan. 8.—Flaying recent books on subjects relating to colleges and college students, President Floyd Goodnight, of Bethany college, said he considers the young people of today just as sensible as college students of former years, in an address to faculty and students today.

"Considering the kind of parents you have and the number of times they have taken you to church, I think you are a pretty fair bunch," he told the students.

In answer to Dr. Coe's question in his book "What ails our youth?" would say, not anything."

COUNTY WILL SEEK BIDS FEBRUARY 1 FOR PAVING JOBS

Benton and N. Georgetown Roads Will Get Early Consideration.

It has been officially announced that the county commissioners propose to advertise for bids on or about Feb. 1, for the grading and surfacing of three road projects as proposed in the road construction plan approved by the board last year and as a part of the improvement measures covered by the \$950,000 bond issue approved at the November election.

One of the first roads to be improved with concrete service is the North Georgetown-Village rd. for a distance of 2.65 miles. This road has been estimated to cost \$182,000. The second job to be advertised will be the improvement of the East

Rochester-North Georgetown rd. from the West-Knox township line northward to North Georgetown, a distance of 2.08 miles. This work has been estimated to cost \$66,000.

South County Roads
Bids will also be sought for the grading and constructing of drainage structures on that part of I. C. H. No. 502 or the East Liverpool-Youngstown rd. from the sub station on the Y. & O. railroad northward and westward to Apple's Corners where the road will connect with the Line 11 Highway. The distance to be graded has been placed at 3.52 miles and the cost of this part of the final contract has been estimated at \$50,000.

The county commissioners have also approved plans and have forwarded them to the State Highway Department at Columbus for the securing of that section of I. C. H. No. 381, the Wellsville-Salmonville rd. known as the "Salmonville section." This half mile piece of road is within the corporate limits of the village of Salmonville, and is the only section between the two terminals not now surfaced, but which is "out of the mud" because of being cut off.

Plans for the improvement of Section D-3 of I. C. H. No. 502 from Middleton north to the Mahoning-Columbiana county line have also been approved by the commissioners and forwarded to the department at Columbus. This stretch of over four miles will be graded and surfaced this year, and the job will also be included in the February letting.

The commissioners have been officially informed that the State Highway Department will maintain the present center section of the Lisbon-Fulton rd. for a distance of about two miles. The location of this road eastward from Fulton has not been determined by the State Highway Department, although a public hearing was held on this project several months ago, with W. G. Fawcett, state leasing engineer, as examiner.

Funds For Benton Road
An agreement has been entered into between the county commissioners and the State Highway Department, whereby the county funds are to be used on the construction of a section of I. C. H. No. 12, or the Benton rd. out of Salem to the Mahoning county line.

The county commissioners have also an agreement with the state whereby the county has agreed to finance and build the center portion of the Canfield-Columbiana rd. in this county, a distance of about 600 feet.

Plans for the improvement of the East Liverpool-Youngstown rd. from the East Liverpool city limits north have not yet been completed by Surveyor Kirk.

LEETONIA

On Wednesday morning about 2:30 p. m. the local firemen were called out to extinguish a fire at the home of Mr. and Mrs. Tony Spazette, West Main st. The fire was in an outside bake oven and the firemen were able with a lot of hard work to save the house.

During the day Mrs. Spazette had baked in the oven and the coals were raked out on the ground. It is thought the coals smouldered until the strong wind which arose in the night set them on fire. The damage was slight.

The funeral of John Helt which was held Wednesday morning at 9 o'clock in St. Patrick's Catholic church was largely attended by relatives and friends. The pallbearers were four nephews of the deceased and two close friends.

Following services at the church a long procession of automobiles followed the funeral car to Lisbon where the body was laid to rest.

Mrs. P. M. Kelley entertained the Wednesday Afternoon Bridge club at her home, 484 Columbia st. There were two tables in play. The prize for high score was won by Mrs. Russell Shive and the consolation prize went to Mrs. A. A. Crawford.

Mrs. Karl Patterson is ill at her home, suffering from a severe cold.

A. F. Hupner has been ill for the past several days at his home.

Mrs. Emma Spink has gone to Alliance to spend the winter at the home of her daughter, Mrs. Lloyd Holmstrom. Her husband, William Spink, passed away about three weeks ago.

Mrs. Brown, Pearl st., who has had a three weeks siege with a badly injured knee, is able to be out of bed again. She had gone out of the door for the mail and slipped and falling, struck her knee on the step.

As Mrs. Brown is of advanced years apprehension was felt for the outcome of the injury.

EVELYN CHANGES MIND AGAIN; NOW ANXIOUS TO DIE

Chicago, Jan. 8.—Evelyn Nesbit Thaw plans to die by her own hand just as soon as she gets out of the hospital where she now is recovering from her third suicide attempt.

She's "simply sick of living," she told Dr. Amante Rongetti, head of the hospital, when he sought to assure her today that she soon would be well.

"You might as well let me die," she retorted. "I don't want to get well. If I get well, I'll do it again any how, and do it with something deadlier than lvsol More. I'll do it where no one will find me and give me an antidote."

As a result of her threat she was kept constantly under the eye of a nurse while in the hospital.

together sandwich fashion and fasten with toothpicks, string or sew together with coarse thread. Rub them with melted butter and dredge lightly with flour. Place in baking pan and surround with parboiled and sliced sweet potatoes and the apples quartered with paring. Drop bits of butter on potatoes and apples and sprinkle with brown sugar. Bake at 450 degrees until tenderloins are well done and potatoes a golden brown. Remove strings or toothpicks and serve on a hot platter, the meat in center with apples and sweet potatoes placed alternately around it. If gravy is desired it may be made in usual way from juices in the pan. Double pork chops with a slit in them can be used instead of tenderloins.

INVENTORY
As soon as the holidays are over the shops and factories take inventory of their stock. It is a good custom for the housewife to follow. Gifts of furniture often require one to rearrange one's rooms and possibly get rid of one or two old pieces or renovate them for use in another room. If you are planning on redecorating in the spring it is well to decide now on color schemes and alterations so as to have your plans made before the decorators are to rushed to attend to your wants.

Manhattan Pudding—One and one-half cups orange juice, one-quarter cup lemon juice, one teaspoon vanilla, one and one-half cup powdered sugar, one-half cup chopped almonds, one pint heavy cream. Blanch almonds

and brown in oven before chopping. Mix fruit juices and half the sugar together. Let stand until sugar is thoroughly dissolved. Pour mixture into a brick or fancy mold which has been chilled. Whip cream, adding rest of sugar, vanilla and chopped almonds. Pour this over the first mixture. Adjust cover and seal with a strip of cloth which has been dipped in melted butter or margarine. The ice hardens the fat and a perfect seal is formed. Pack in equal parts of ice and salt and let stand three and one-half hours. This recipe is a large one and serves eight to ten people.

Latest in Style for Women

Paris, Jan. 2.—Have you a little snake in your wardrobe? Which means of course the very latest reptile skin glove which all Paris is wearing.

Some of the smart glove-makers are making the entire glove of snake, others are using it only for the cuff. In any case, it is a handsome innovation for the skin is treated and softened until it is like a piece of silk or velvet. If the glove comes in snake skin it is considered very chic to have a touch on the hat or a little on the costume. Snake-skin shoes are also very popular.

Fish-skin gloves are another novelty that are attracting many Parisiennes. It has been used on shoes for some time, but the glove-makers are just taking it up. More than forty-five varieties of oceanic fanna are said to be good for the production of excellent leather. The smartest thing is to leave the shiny scales on, thus forming a striking contrast with the dull part of the glove.

The slip-on glove is now a bit passe, having given over its place to the

short one with the fancy cuff, but it is likely that the former will come back if the wide fur cuffs continue to be popular. Cuffs of every kind are being embroidered, beaded or painted in bright colors. Soft bags and champagne tones are the most popular, except for black costumes when black gloves are worn.

ELKRUN ELECTS OFFICERS; FARM HOME BURNS

Lisbon, Jan. 2.—Trustees of Elkrun township have organized by electing J. E. Galtbreath president and E. P. Montgomery vice president. The third member of the board is Ed Armstrong. L. H. Baker is clerk and treasurer of the township, also of the township board of education. The Elkrun township board of education has organized by electing Van J. Morris president and Edward Custer vice president. Other members of the board are L. J. Neville, W. H. Kelvington, Ray Lowry who was elected to this office did not qualify at the last meeting of the board of education.

Will K. Morris has qualified as Justice of the Peace for Elkrun township, succeeding Mr. Baker who is now the township clerk and treasurer.

The frame farm home of John A. Todd on the Cream Ridge road in Elkrun township was destroyed by fire early Wednesday morning. The fire originated from an overheated stove. The home and all contents were destroyed.

George V. Davis, residing with his

daughter near Elkton, is very ill at his home, having suffered a partial stroke. Mr. Davis is past 80 years of age. John G. Jeffress, old news vender on the Southern Pacific ferry in San Francisco, cashed in 3843 rebate coupons for \$1,900. Passengers gave them to him when the road was trying to save off a rate reduction.
